

Fire Season is here. Please get friends to register their phone numbers for the crest emergency communication system, OneCall Now, and if your phone numbers have changed or new ones added, please let me know.

Thank you to all who have turned in their survey for the upcoming benefit fee. Next in the mail will be the ballot. We need to pass the ballot measure to keep our fire station open. The fund raising money will keep us going until June, so thank you once again.

Just to clarify the rumor that if we do nothing, the County will step in: Totally untrue! I realize the articles in the newspaper regarding the LAFCO proposal are confusing and infer that we will all merge. The merge could take 5 to 7 years, as it has been 25 years in the making thus far, and there is no money to fund the proposal. We can't wait that long, we need to do something now.

If you want to have neighbors over for a discussion, myself, as Vice President of your fire board or Dawn Hubert, president, will be glad to come and speak. Contact us through 44-CREST, crestfiresafecouncil@yahoo.com, kandhyfranklin@cox.net, or my cell 619-977-1566.

Please support our next fund raiser, open flyer it is in pdf form.

Thank you for your support,
Kandhy Franklin-Collins
